• PROFILE

Passionate junior developer with enthusiasm, unique insights, the ability to adapt and creatively solve problems in both an individual and collaborative environment.

• EMPLOYMENT HISTORY

F&I Manager at Joe Ferguson Buick GMC, Colorado Springs

April 2021 — July 2022

- Managed funding and back-end sales for a very high volume dealership.
- Increased back-end vehicle gross sales substantially through direct customer communication while building relationships.
- Turned the back-end sales into the most profitable sales department in the store.
- Revamped the computer software to increase productivity while maintaining professional standards.

Track Manager at Pikes Peak International Raceway, Fountain, CO

March 2016 — December 2019

- Showed up to work every day ready for a new challenge to tackle.
- Dedicated time to finding the best personnel to represent the company in the face of the public.
- Catered to needs of clients with an enthusiastic initial greeting to the end of a unique and memorable experience.
- Took an innovative approach to find solutions that best fit customers needs.
- Ensured that costs were as low as possible while profits were maximized.

Driving Instructor

January 2013

- Lead driving instructor for some of the biggest and most prestigious racing schools in the country.
- Worked with a diverse clientele to provide an entertaining and informative experience.
- Building, creating, and delivering individualized classroom and field work curriculum for groups with class sizes from 1 to 100 students.

Professional Race Car Driver

June 2012

- Building and maintaining relationships with a driving team and its sponsors to give them a professional, standout representative.
- Performing in high stress environments to deliver definitive results while utilizing and ensuring the safety of vastly expensive equipment.
- Work hand in hand with mechanical and computer engineering teams to grow my understanding of the vehicles and how to make them more effective for all around team success.

• EDUCATION

Full Stack Web Development, University of Denver, Denver

July 2022 — October 2022

Successful completion in the University of Denver's full time Full-Stack Web Development boot camp. The class was a rigorous course that taught me the skills and knowledge necessary to be a valuable addition to any web development team. I gained the ability to complete fully operational and engaging Full-Stack Web Development projects within deadlines both in teams and individually.

HS Diploma, Lewis Palmer High School, Monument

2008 — 2011

Took an advanced education route with additional classes to graduate mid-term senior year in order to pursue my professional racing career at a young age.
